

YOU IMAGINE, WE CREATE IT

THE COLLECTION

THE ROAD IS YOURS.

A place of your own.

A journey on your terms.

XC NOMAD / XC TERRA / XC ATLAS

MADE IN DUBAI

Where would you go?

A desert sunrise. The last light beyond the mountains.
The view changes; your own space comes with you.

01

XC NOMAD

Compact pickup habitats

Toyota Hilux GR Sport
Ford Raptor

STARTING FROM AED

295,000

02

XC TERRA

16-18 ft expedition habitats

Full-size pickup / chassis-cab
GMC Sierra HD / Ford F-550

STARTING FROM AED

350,000

03

XC ATLAS

Expedition truck habitats

Larger truck platforms
Vehicle-specific body fit

STARTING FROM AED

425,000

LIGHTWEIGHT GRP. HEAVY-DUTY PURPOSE.

Distinctive X Campers bodies, integrated lower storage and a habitat built around your journey. Base vehicle supplied by the customer. Package breakdown on page 11.

XC NOMAD

Make room for a detour.

Compact pickup camper.
Toyota Hilux GR Sport /
Ford Raptor.

STARTING FROM AED

295,000

X POWER

10 kWh

Included lithium capacity

Inverter and solar equipment
specified for your build.

BODY & MOUNTING

Lightweight GRP body.
Stock bed removed.
Integrated lower storage.
X Dynamic Zero Torsion System.

X CAMPERS INTERIOR

Complete interior with agreed equipment.
Layout, materials and finishes selected for your
build.

X CAMPERS EXTERIOR

Black Rhino alloys / Yokohama off-road tyres. XC front
and rear bumpers, winch, fender flaring, motorized
spare wheel mount and rear storage box.

XC TERRA

Let the road take its time.

16-18 ft expedition habitat.
GMC Sierra HD / Ford F-550
pickup and chassis-cab builds.

STARTING FROM AED

350,000

X POWER

20 kWh

Included lithium capacity

8-9 kW inverter

Four roof solar panels

BODY & MOUNTING

Lightweight GRP body.
Stock bed removed.
Integrated lower storage.
X Dynamic Zero Torsion System.

X CAMPERS INTERIOR

Complete interior with agreed equipment.
Layout, materials and finishes selected for your build.

X CAMPERS EXTERIOR

Black Rhino alloys / Yokohama off-road tyres. XC front and rear bumpers, winch, fender flaring, motorized spare wheel mount and rear storage box.

XC ATLAS

Think beyond the itinerary.

Expedition truck habitat.
A larger platform, matched
to your chosen chassis.

STARTING FROM AED

425,000

X POWER

30 kWh

Included lithium capacity

Inverter and solar equipment
specified for your build.

BODY & MOUNTING

Lightweight GRP habitat.
Truck-specific body fit.
Integrated lower storage.
X Dynamic Zero Torsion System.

X CAMPERS INTERIOR

Complete interior with agreed equipment.
Layout, materials and finishes selected for your
build.

X CAMPERS EXTERIOR

Black Rhino alloys / Yokohama off-road tyres. XC front
and rear bumpers, winch, fender flaring, motorized
spare wheel mount and rear storage box.

For the road ahead.

Aerodynamic design begins with the shape.
Sculpted cab-over surfaces bring the cab
and habitat into one coordinated profile.

Make time your own.

The view is worth another morning. X Power brings energy storage and onboard power together.

XC NOMAD

10 kWh

XC TERRA

20 kWh

XC ATLAS

30 kWh

Included lithium capacity. Upgrades beyond the included specification are chargeable.

TERRA X POWER

Let daylight play its part.

8-9 kW inverter.

Four roof solar panels.

Ventilated mounts, protected cables
and a weatherproof roof entry.

Mounting-principle illustration. Panel choice, clearances and roof layout follow the final specification.

04 / SETTLE IN / XC TERRA INTERIOR

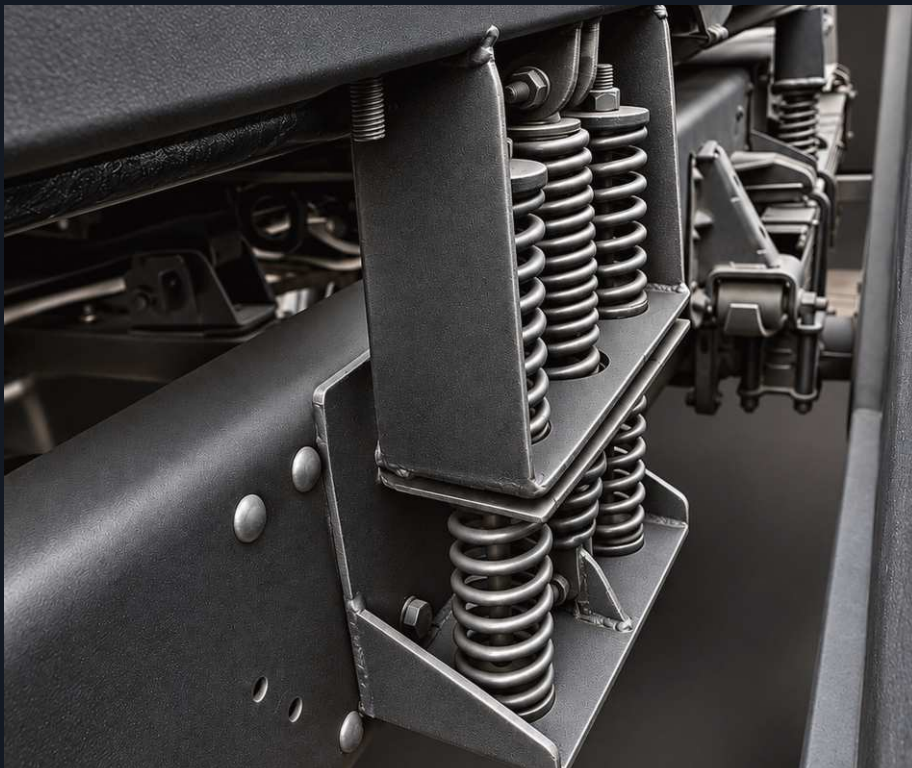

A place to call your own.

Interior based on the XC Terra builder configuration. Layout and finishes follow the agreed build.

Fitted galley. Compact rear lounge.
Natural oak, warm ivory and desert sand.

X DYNAMIC ZERO TORSION SYSTEM

A hybrid dynamic subframe.
Springs and pivots connect the habitat
to the vehicle chassis.

01 / SPRING ASSEMBLIES

Designed to accommodate relative movement
at the mounting interface.

X Dynamic Zero Torsion System is the system name. Operating limits follow the approved build.

02 / PIVOT CONNECTIONS

Working with the spring assemblies.
Mounting geometry follows the chassis.

Care you can feel.

Considered materials. Careful stitching. One discreet embroidered accent.

01

Bring your plans.

Choose your range and bring your base vehicle. Tell us where you want to go.

Pickup builds replace the stock bed. Lower and under-rack storage, access and equipment follow the agreed chassis specification.

02

Shape your space.

Agree the layout, materials, equipment and finishes around your journeys.

03

Make it real.

Review chassis fit, the mounting system, X Power and your complete quotation.

A clear starting point.
